

AV cabinet 980/981

AV cabinets 980/981 together with a projector and projector's source represent a powerful projection mobile kit. Cabinet can be additionally equipped with three socket plug and detachable power cord. It has one upper shelf on which the projector can be placed and one pull-out shelf designed for notebooks. There is a lot of empty storage space under the pull-out shelf that can be used for other appliances and one drawer in which leaflets, catalogues or other presentation material can be stored. Cabinet is protected with a roller-shutter and secured with a lock.
