

Stand ST 200 W

Vega stand ST 200 W is an electric driven wall stand for touch screens and displays alike intended for mounting on the wall. Its main function is height adjustment of touch screens in the range of 50 centimetres from its basic position. Everything is controlled at the touch of a button via single wired remote control. ST 200 W can additionally be equipped with a metal shelf for laptop and/or side shelf for Mini PC. This product is suitable for touch screens ranging from 42" up to 84" or larger with maximum load capacity of up to 160 kg. These features make it ideally suited for schools as well as for offices and conference rooms.
