

ST 70 trolley/stand

ST 70 trolley/stand is designed for LCD/Plasma or Touch screens displays. Made of solid steel framework it represents a unique tool for efficient presentation. ST 70 can be equipped with a single or double display mount often used for videoconferencing. Depending on a situation ST 70 can be used either as a trolley or a stand. It enables easy mounting of displays regardless of its brand. ST 70 incorporates a metal shelf and optionally an additional wooden bottom shelf. Its strong and wide metal frame enables easy cable management from within the frame itself. ST 70 is available in anthracite color.
