

Wall Mount WM 32

Wall mount WM 32 is designed for the new thin generation of LCD/Plasma displays. Made of solid steel framework it meets all the needs of modern users seeking an advanced solution for Plasma and LCD displays with optimum combination of functionality, ergonomics and fashionable design. Our Universal Wall Mount will satisfy diverse tastes, adapt perfectly to your work or home environment and offer an innovative security solution to guard against thefts. Wall mount WM 32 holds displays only 20 mm from the wall (please be sure to check that your display has only side or bottom ports/inputs).
